

Thunderbird Addons

AttachmentExtractor

Helps archive email & attachments out of
Thunderbird in bulk.

Manually sort folders

Move email accounts in the order that you want.

Thunderbird conversations

Combine inbox & sent into one.

Cardbook

Sync google contacts and others nicely. Colour each list so that you know where it's coming from.

LookOut (fix version)

Unpack MS Winmail.dat archive formats

Xpunge

Automatically clean up and compress multiple accounts on a schedule.

Signature sync for Gmail

Keep signatures in one place (gmail.com)

Plik

Attach large files

MetaClean

Remove meta data on PDF,ODT,etc. Good for privacy making sure no personal data is leaked out of your organisation.

ThunderHTMLedit

HTML Editor in write window

Demo
